WORKING WITH THE XLS PARTICIPANT UPLOAD FORM

DOWNLOADING THE TEMPLATE FILE

You will need to download the template XLS file in the participant module of Mindmarker.

The red arrows in the screenshot below indicate where you can download the template.

TEXT ONLY

The cell format in the template is set to "text". Do not change this as the system will only read cells that are formatted to "text".

NOTATION RULES AND LIMITATIONS

Changing Values in the Revision Phase

Once you have populated the template with your participants' data and uploaded the template file, the system will do a check of all fields (**Validate File**). The system will check for possible errors and/or missing data and guide you to correct data or add additional data if necessary. One of the great features of the system is the bulk change feature, which allows you to change a value for all participants at one time.

FIELDS AND VALID VALUES

Email address

Enter the email addresses of the participants you wish to upload in the email address field. This field only accepts valid email addresses e.g. "john.smith@example.com".

Country

Please choose the appropriate country from the list included in the template. The application will not accept abbreviations e.g. USA for United States. A list of valid country names is included in the Appendix.

Region, Department and Job Type

These fields are specific for the company for which you are inviting participants and have been set up when the company's account was created. If you do not know what values have been set up for these fields, please contact your program manager. Another option is to leave these blank; once you have selected "validate file" the system will show you what values are available. You can then select these values per participant or use the bulk change feature to assign a specific value to all participants. If you do not want to add attributes, simply leave as **not defined**.

Invitation day, month and year

Enter the day, month and year on which an automated invitation to the participant(s) will be sent.

For example, the date “March 9, 2017” should be filled out as follows:

Invitation day	Invitation month	Invitation year
9	3	2017
09	03	2017

Please note that you can use “0” in both the invitation day and month fields.

Invitation Time

Invitation time is the exact time that the invitation will be sent out. Please make sure to use US time notations based on a **12-hour clock** accompanied by AM or PM. Only use whole hours.

Some examples are shown below:

Value	Output
5 PM	Valid
05 PM	Valid
17:30	Invalid
05:30 PM	Invalid
05:23	Invalid

Time Zone

The time zone field ensures the invitation will be sent to the participant(s) on the specified time in the correct time zone of the participant(s).

The time zone value must be entered according to geographically valid time zone values. Please choose the appropriate time zone from the list included in the template. You can also find the list of valid time zones in the Appendix.

Note that this only influences the timing of the invitation email. After the participant has activated his/her account the application captures the time zone of the participant’s device, and sends out the Mindmarkers based on this new (updated) time zone value.

Language

The language field allows the invitation to be sent to the participant(s) in the selected language of choice.
